Fully manufactured PVC-U bi-fold doors

For an open, flexible and modern space for both living and working environments - bi-fold doors are the perfect solution. They make a real statement of elegance and versatility, as well as giving your customers a panoramic view of the outside.

Crystal's bi-fold doors are engineered to the highest standards, available in a variety of finishes and combinations, and with an excellent tracking system designed to ensure years of trouble free service with aluminium top and bottom tracks and PVC-U door sashes. Manufactured from the proven Shield range of PVC-U profiles, the bi-fold doors will require little maintenance and will keep your customers' homes warm due to their energy efficiency.

Why choose a bi-fold door from Crystal?

- · Door fully assembled for easy installation
- Thermally broken top and bottom aluminium tracks improve thermal efficiency and reduce condensation
- Utilises Siegenia gearing
- Available in a range of finishes with either white or brown tracks
- Lower thresholds for ease of access as there is no need for bulky add-ons
- Sealing weather strips conceal unsightly gasket lines to complete the professional look of the door
- Rigid aluminium tracks increase structural strength meaning the door is easier to transport and prevents excessive flex to ensure that the doors run smoothly, even on long spans with multiple door configurations.

Available in the following colour options:

Cherrywood

on White

Shield White

Legend ovolo White

Golden Oak on White

Simply select your door height, width, hardware choice, sill, finish and configuration and your door will be delivered to you ready for installation.

The above colours are designed as a guide to the Artisan Woodgrain Collection. Before making your final decision, please ensure you have seen a foil swatch.

Installation Support

We will help you every step of the way and have produced a detailed installation guide - this will accompany your delivery.

Configurations

Diagram	Code	Maximum width
	220	1.8m
	321	2.7m
	330	2.7m
	431	3.6m
	440	3.6m
	541	4.5m

Diagram	Code	Maximum width
	550	4.5m
	532	4.5m
	633	5.4m
	651	5.4m
	660	5.4m

Maximum height: 2300mm Maximum widths: Woodgrain 4500mm | White 5400mm

NOTE: Schemes 220/440/660 (including reverse schemes) all have a 25mm addon to the lock side. This allows required clearance due to the boogie wheel over sailing the edge of the frame.

How the configurations work

Viewed from the outside.
